BUILDING

Smarter Homes

Smater Home Integration

Build communities that allow new homeowners to automate their homes like never before. Offer your customers professionally integrated smarter home security, automation and energy-saving capabilities—from one easy to use mobile app.

ALWAYS ON AWARENESS

Homeowners can remotely monitor and control all their connected devices, including locks, lights, garage doors, and cameras from a single app.

YOUR CUSTOMERS WILL BE ABLE TO:

- See who's coming in and out
- Create the perfect climate and ambiance
- Take control of energy use
- Integrate voice-controlled automation devices

iOS with Siri Shortcuts   works with the Google Assistant   amazon alexa ENABLED

INTELLIGENT AUTOMATION

Homeowners can remotely turn their lights on or off, have them come on automatically when they walk in the door, or set schedules to make it look like someone is home when they're on vacation. Automation solutions like integration lights, locks, garage door and shades come with every smart home installation.

ADVANCED ENERGY MANGEMENT

Customers can control their thermostats no matter where they go. With customizable, flexible schedules, they can always come home to a comfortable environment. Leveraging data from inside and outside the home, our Smart Thermostat automatically responds to activity, occupancy, and weather patterns.

VIDEO MONITORING

Customers can see what's happening inside and outside the home with CSIntel.com's line of tamper-resistant cameras. The Doorbell Camera includes a motion sensor and speaker, allowing users to answer the door, see who's there, speak with their visitors and record a video.

PRE-CLOSING HOME SERVICES

CSIntel.com technology offers cellular communication to the cloud, allowing you to take advantage of energy savings and access management prior to closing — all without WiFi.
